CALL FOR PAPERS

The 19th International Symposium on Wireless Personal Multimedia Communications 2016 (WPMC 2016) will be held at *Shenzhen Virtual University Park, Shenzhen, China* from the 13th to the 16th of November, 2016. The theme of this year's conference is the *Interconnecting Wireless Personal Multimedia Communications*.

The WPMC 2016 is technically sponsored by the IEEE ComSoc. All accepted and presented papers in technical sessions and workshops will be published in the conference proceedings and in the IEEE Xplore as well as other Abstracting and Indexing (A&I) databases.

TOPICS OF INTEREST

Wireless Communications and PHY

- Advanced modulation schemes
- Cognitive radio
- Cooperative communications
- Information and coding theory
- Interference characterization
- MIMO channel models
- Smart/ reconfigurable antennas
- Visible light Communications

Communications Services and Multimedia Applications

- Big data and data mining
- Cloud computing
- Emerging wireless and mobile applications
- Experimental trials and deployment
- Wireless health applications

Wireless Networks

- Ad-hoc networks
- Cognitive radio networks
- Cross-layer design
- Interference management
- IoT and M2M communications
- Localization
- Mobility and handoff
- Vehicular networks
- Spectrum sharing

Security and Privacy in Communications

- PHY-layer Security
- Communication privacy and anonymity
- Network intrusion detection and prevention, firewalls, packet filters
- Malware, botnets and distributed denial of service
- Key and credential management
